

November 7th, 2022

**From Rubble to Rebuilding,
our continued Reliability & Dedication.**

To Our Hardwick Community & Valued Customers,

We hope you are well and feeling more stable, secure, and re-established after this Summer's devastating flooding across the state. Thank you for supporting the Poulin team in Hardwick and beyond. You are the driving force behind our mission and commitment to serving our communities.

I am proud to share an exciting update that has been in the works since the waters receded, allowing us to start clearing the mud, silt, and debris. While the flooding caused challenging times, we were able to take the opportunity to make lemonade out of lemons.

We have completely revamped the store to serve the community and our customers better. There have been significant improvements to the lumber yard, store interior, and structure, along with our overall layout and improved exterior facelift. We appreciate everyone's patience and understanding during this challenging time but want to reassure you that we are back and better than ever.

Hardwick will be fully operational again beginning **Monday, November 13th.**

Opening hours Monday - Friday | 7:00 am - 4:30 pm
We will temporarily remain closed on Saturdays and Sundays until further notice.

Let us know how we can best serve you and your project needs.

We're more than lumber; We are Poulin Building Materials.
Your Trusted Partner since 1936.

Sincerely,

Bill Hartman
President
